## PRESS RELEASE

### REVISION OF INFOGRAPHS ON DAILY VOTER REGISTRATION FIGURES

The Electoral Commission has noted some mistakes in the daily voter registration figures earlier published. The mistakes appeared in the total registered figures stated for days two and three although the individual regional figures were accurate, while the day three figure for Upper East was repeated for day four. All these have been corrected.

The figures in the Bar Graph for all the four days however remain the same.

At the end of the four days the total number of registered voters remain 143, 014.

Attached are the revised infographs.
